

## **File Transmission**

Your files or print streams can be sent to us, or returned to you, almost instantaneously, without worrying about purchasing expensive hardware or software. Data can also be received and/or delivered by a variety of time-efficient methods, including: e-mail, FTP, and various tape formats.

### **FTP Software**

There are numerous FTP client packages available; just type "ftp clients" in a search engine on the Internet.

Some of the more used are CuteFTP ( <http://www.globalscape.net/> ) and FTP Explorer ( <http://www.ftpx.com/> ).
